

Indie AUTHOR DAY²⁰¹⁷

CREATE A FACEBOOK ALBUM CELEBRATING INDIE AUTHORS!

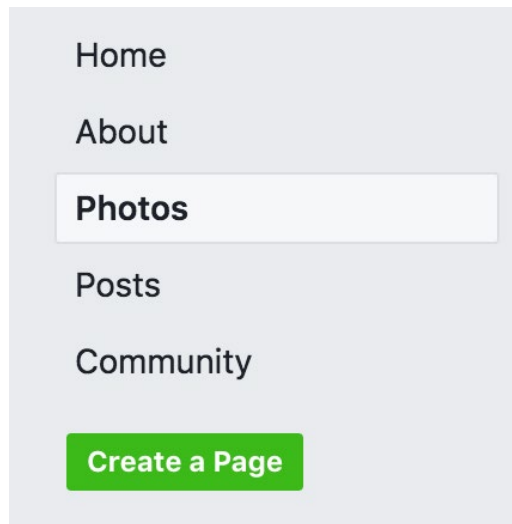

Log into your library's Facebook page. In the center of the page you'll see your status bar and quick action buttons.

The screenshot shows a Facebook page for 'Indie Author Day' with the handle '@IndieAuthorDay'. The page features a blue cover photo with the text 'Indie Author Day is an annual event where libraries celebrate authors in their community.' The left sidebar includes navigation options: Home, About, Photos, Posts, and Community, along with a 'Create a Page' button. The main content area displays the page's status bar with 'Liked', 'Following', and 'Share' buttons, and a post creation section with options for Status, Photo/Video, Live Video, and Products, Event +.

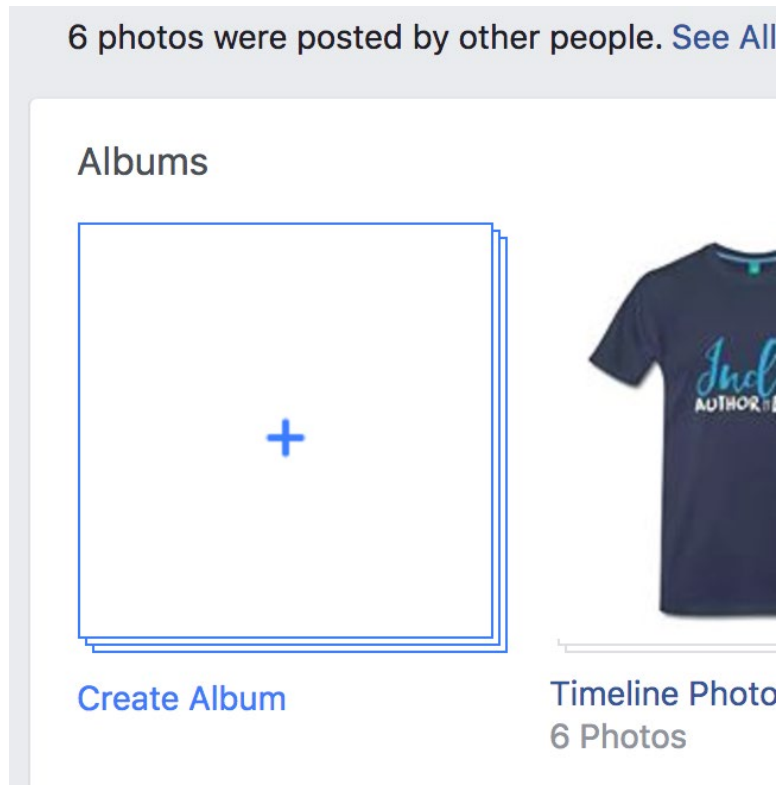

2

Click "Photos" on the left hand column.

3

Now in the center of your page where your status bar and quick action buttons were, the "Photos" section will appear. At the top of that section, click the "+" sign on "Create Album".

4

Be sure to enter a title and description for the album. Let us know about the album by tagging @IndieAuthorDay in the album description. Make sure you have liked our Facebook page first so our name will auto-populate when typing.

5

You can now drag and drop photos into the album--individually or in bulk.

6

In the caption space below each photo, enter author information like name, book title(s), fun facts and a quote about what it is like to be an indie author.

7

Once you have uploaded all your photos and entered a bit of info about each author, click "Post" on the bottom right-hand corner. You can always add more photos to this album at a later date.
